

Virtual Offices & Part-Time Offices

Pacific Business Centers has tailored part-time office plans and virtual office plans specifically for professionals who need the business services we provide but not the physical office space, at least not on a full-time basis. They may be on-the-road sales people who need not spend much time in the office, or professionals working off their home office.

Through one of our virtual plans, they appreciate access to our elegant conference rooms for meetings with clients or co-workers or to be able to drop in one of our guest offices as required. They benefit from our prestigious business address and often use our mail services and phone answering services.

Our virtual office plans provide customers with a very economic way to project a strong image and to access the services you need, without a dedicated office space. Here is a sample of the plans available to you:

eOffice (Unified Messaging) (\$95)

- Dedicated Telephone line
- Voice Mail
- Check faxes (E-Fax!) and voicemails from your desktop

On-The-Go-Office (from \$125)
